# AQUNA SUSTAINABLE MURRAY COD

#1

8B3-10 (HALL 8)

Based in the Riverina, New South Wales, Murray Cod Australia Limited is the world's leading producer of premium sustainably grown Murray cod on its innovative farms within the geography of the Murray-Darling basin—the fish's native environment. The fish and its by-products are marketed under the brand Aquana Sustainable Murray Cod.

A fish with roots as deep as its flavour and inspired by 'the way forward' and 'flowing water,' it's sustainably raised in free-range ponds on the Murray-Darling basin, where its native waters create a clean-tasting, snow-white, and flaky flesh. Versatile qualities and a clean and delicate flavour, make Aquana a truly versatile fish to cook with, perfect when pan-seared, baked, battered, steamed, and grilled.

Our premium sustainably farmed Murray cod, with a firm texture and natural, clean, creamy flavour, is coveted around Australia as a fine-dining fish. Chefs rave about its buttery texture and flawless ability to hold bold flavours, and we're hooking the very best chefs from Michelin-starred restaurants on our fish across the globe.

# BRUNY ISLAND CHEESE

#2

8C3-01 (HALL 8)

Bruny Island Cheese Co. produces artisan cheeses in Tasmania using traditional techniques that reflect the region's character. Made on Bruny Island and in the Huon Valley, their cheeses are highly regarded as some of the finest artisan cheeses in Australia. Crafted with milk from their own herd of rare breed cows, the cheeses change seasonally to showcase the unique Tasmanian terroir.

In 2016, they expanded into brewing, creating beers with locally grown ingredients and an eye towards Tasmania's seasons and sensibilities. Like their cheeses, these beers reflect a dedication to quality and traditional methods. Bruny Island Cheese Co. remains deeply committed to sustainable farming, ethical production, and supporting local producers, ensuring their cheeses and beers capture the true essence of Tasmania.

## Whey Stout

Whey Stout is a roasty milk stout enriched with lactose from Bruny Island Cheese Co.'s very own cow's milk whey left over after cheese making. The brewer's yeast cannot digest the lactose sugar, meaning that it stays behind in the beer and enhances the sweetness and texture. Whey Stout goes well with Saint.

### Saint

In the central plateau of France, there are a number of cheeses named after local saints. Similar to Saint, these cheeses are surface-ripened, soft, and oozy, with a light bloom on the rind - unlike the thick carpet of single-strain white mould found on more commercial cheeses.

This cheese can be eaten young, when the inside is still firm and the flavour more delicate, or aged until the curd breaks down completely, developing a more pungent flavour.

### Raw Milk C2

Raw milk cheese is still a very new concept in Australia, and Raw Milk C2 is the one that started it all. It was the first raw milk cheese in Australia (way back in 2009) and being unpasteurised, is the purest expression of Bruny Island Cheese Co.'s craft.

C2 is the sort of cheese found throughout the mountains of France and northern Italy. A classic cooked curd cheese made in a traditional large form. C2 matures for 4 - 8 months, during which time it develops a sweet aroma and a mildly nutty flavour. The rind is wiped every week to encourage the surface bacteria that provide this cheese with much of its robust integrity.

For four generations, we've kept tradition at heart, brewing to traditional recipes, using time-honoured brewing methods, and the best quality ingredients. We are guided by the rule, "If it's worth brewing; it's worth brewing well". We craft-brew our beverages for up to seven days to capture the refreshing taste of real ingredients. We are proud to be an Australian family-owned company, known for our iconic Ginger Beer and range of premium Brews

Our company is rich in family history. Bundaberg Brewed Drinks is an iconic Australian family-owned business, based in the small Australian town that shares our name, Bundaberg.

Established in 1968, the company had a vision to create craft brewed premium non-alcoholic beverages, using time honoured brewing methods and the best quality ingredients.

"Our Brews are crafted to age-old recipes using the best quality ingredients; including real fruit, roots, herbs and spices.

Where possible, our ingredients are sourced locally from our region like our ginger and sugar cane. Our mangos are from northern Australia, our lemons are from the rich soil of the nearby Central Burnett region, and our Blood Oranges are also sourced from 2 specially selected regions in Australia"

We are so passionate about brewing that it's not a process for us, it's an art form!

Every bottle of Bundaberg Brewed Drinks is craft brewed to traditional recipes and methods. Each of our brews start with real ingredients including real fruit, roots, herbs and spices - and each of our brews are designed to obtain the best possible flavour - whether that takes us 24 hours, or 7 days.

There are easier ways to make a soft drink, but no other gives you the intensity of flavour that is given by brewing with real ingredients.

# FROSTY BOY

8E3-01 (HALL 8)

#4

Frosty Boy Global, established in 1976, is a pioneering Australian manufacturer and exporter of premium powder-based products across desserts, beverages, bakery, and savoury categories. Frosty Boy Global showcases Australian innovation on the international stage, with products exported to over 76 countries. Their accolades speak volumes: winners of the 2024 Australian Export Award- Agribusiness, Food, and Beverage, along with a number of export awards. These honours reflect their unwavering commitment to quality, innovation, and a customer-focused approach.

Our powdered solutions deliver exceptional quality, versatility, and consistency, making them a trusted choice for foodservice operators worldwide. From smooth, creamy soft serve that can also be made into inspiring milkshakes to premium artisan beverages, a whipped cream analogue solution for cloud-like desserts, and a rich cheesy savoury sauce base, our products ensure flavour, texture, and reliability in every serving.

Frosty Boy Global partners with Quick Service Restaurants, cafés, and foodservice businesses, helping them expand their menus effortlessly. Whether enhancing dessert lineups with creative soft serves, crafting signature beverages, or introducing innovative offerings, we bring expertise and creativity to every solution. From seasonal beverages to signature desserts, we develop bespoke, high-quality products that set businesses apart. With a commitment to innovation and consistency, we ensure every creation delivers exceptional taste with a touch of magic and pure happiness.

# GLOBAL VICTORIA

8D3, 8D2 (HALL 8)

#5

Global Victoria, the Victorian Government's trade facilitation and promotion branch helps local businesses shine globally by showcasing the state's world-class products and innovative capabilities. With 23 strategically located Victorian Government Trade and Investment (VGTI) offices, including in Singapore, Jakarta, Kuala Lumpur and Ho Chi Minh City, we connect Victorian exporters with international buyers and business leaders, turning global opportunities into measurable success.

As Australia's top food and beverage exporting state, Victoria sets the benchmark for excellence, delivering premium-quality products known for exceptional taste, quality, innovation, and value. The state's diverse geography and southern hemisphere climate provides ideal conditions for producing clean, green, safe, and high-quality products that are trusted and enjoyed globally.

Visit Global Victoria and our Southeast Asia team at Stand 8D3-01 and 8D2-08 where we can connect you to our 30 exhibiting companies across a diverse range of categories including dairy, meat, bakery, ingredients, snacking, beverages and more. We look forward to supporting you to build lasting partnerships with Victoria that add real value to your retail, foodservice or manufacturing offering.

# OUR PEOPLE

**At Global Victoria, the Victorian Government's trade facilitation and promotion agency, we are a diverse group of dedicated trade specialists from across the globe with a vision to make your global business ambitions a reality.**

We work passionately to grow the global connections of Victorian exporters and provide a personalised client experience. We think big and work at the forefront of trade development, and are always available, easy to work with, and focussed on your needs. Our people go the extra mile to help take your business from where you are to where you want to be.

*"In the last 10 to 12 years, we've built a very solid business overseas. We're very grateful to partner with Global Victoria and come up with activities that we haven't been able to do in the past, and to broaden our knowledge and our ability to access other parts of the world."*

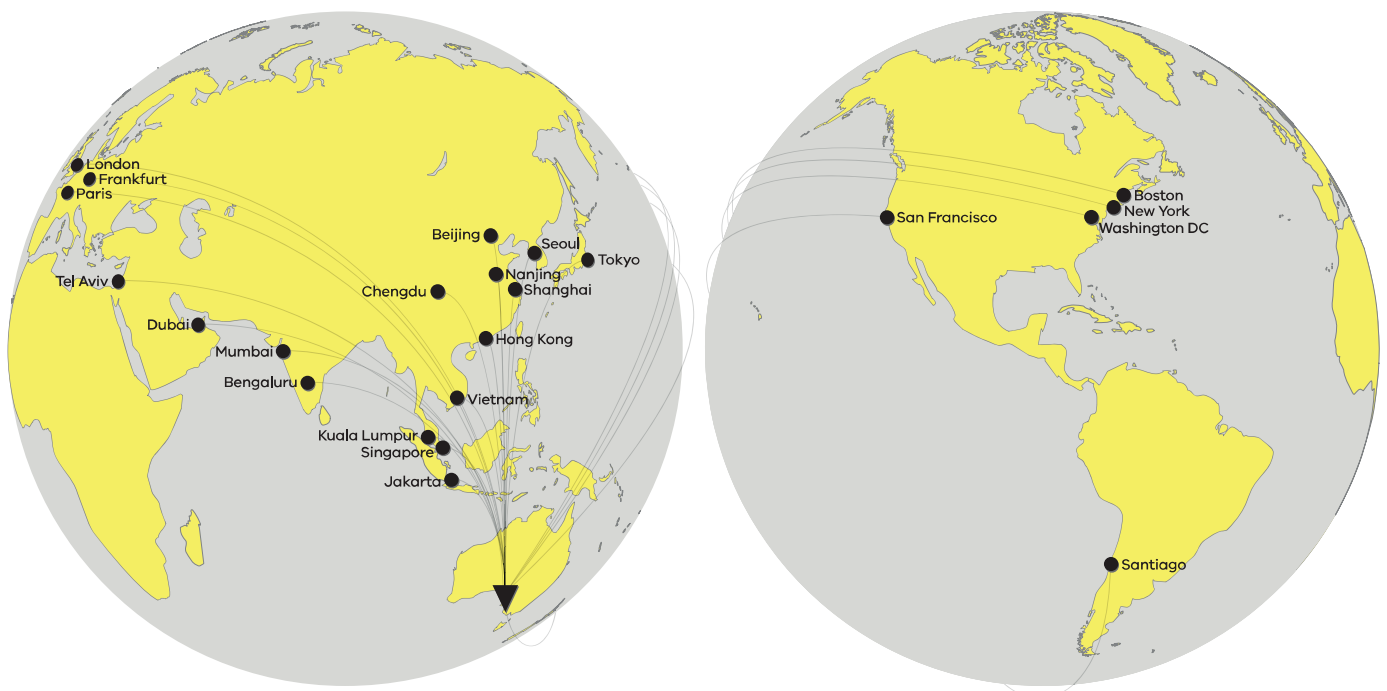

**John Stergiou**  
Head of International Business at PureHarvest

## Victoria's International Network

We have the largest international trade and investment office network of any Australian state or territory. At Global Victoria, we have over 100 team members across the world who are passionate about what they do. Our team are in-market, connected and can help facilitate those in-market introductions often vital for export success.

When you connect with Global Victoria in any of our office locations, you can access support across the world. Our international network of 23 Victorian Government Trade and Investment (VGTI) offices including our Melbourne Head Office helps us to achieve our mission of connecting Victoria to the world and gives us an on-the-ground advantage to support you with direct access to key decision makers and market intelligence.

# LUV A DUCK

8D3-01 (HALL 8)

#8

**Luv a Duck is Australia's leading Duck producer.** The Luv a duck business was established in the 1960s by Arthur Shoppee, Grandfather to the current CEO Daniel Shoppee. It's a 3rd generation family owned, Australian business that is a fully vertically integrated agribusiness... we breed, hatch, farm and process our own ducks, ensuring the quality of our product.

Our farms are in the sunny and spacious Wimmera wheatlands in Western Victoria. The mild climate, plentiful grain, and isolation, enables the enforcement of strict quarantine procedures to prevent disease. We have multiple Victorian processing sites with all the SAI SQF and export certification required for exporting. In terms of biodiversity and safety, Luv-A-Duck is one of the founding members of the Australian Duck Meat Association (ADMA) which led to the development of the Farm Biosecurity Manual for the Duck Meat Industry.

Luv-A-Duck has the widest range of Duck products in Australia to service food service, restaurants, retail, and specialty channels... We are the No.1 Brand in retail supermarkets in Australia with a wide range of fresh frozen and cooked products.

Luv-a<sup>®</sup>  
Duck

# AUSTRALIA'S LEADING DUCK PRODUCER

Established in the 1960s, Luv-a-Duck is a 3rd generation family-owned Australian business. Our farms are in the sunny and spacious Wimmera wheatlands in Western Victoria. The mild climate, plentiful grain and isolation, enables the enforcement of strict quarantine procedures to prevent disease. All our Ducks are antibiotic and hormone free.

## AUSTRALIA'S NO. 1. BRAND

Luv-a-Duck have the widest range of fresh, frozen and cooked Duck in Australia. We supply a wide range of customers including Retail, Food Service, Restaurants and the specialty channels.

[LUVADUCK.COM.AU](http://LUVADUCK.COM.AU)

Seamild® was founded in 1994, embodies the essence of the gentle sea. Driven by a passion for healthy living, we are dedicated to our mission of enabling everyone to embrace a healthy lifestyle. We believe that food serves not only as a source of energy but also as a reflection of one's lifestyle and a conduit for positivity. Thus, we do more than just produce food; we actively promote a healthy way of life.

Our parent company, Guilin Seamild Foods Co., Ltd., is the only listed oat company in China who has full industrial chain. Upholding the corporate values of "Faithfulness and Health Way," the corporate vision of "Establish an industry benchmarks and Create a Century brand" and the corporate mission of "Serving people's health", the company produces and provides safe and nutritious healthy foods for hundreds of millions of families in China every year, making it the number one oatmeal cereal brand in China. Seamild is committed to excellence and proudly champions Australian oats, having used them in the production of its oatmeal for over 20 years with annual purchase over AUD 60 mil. Our products are FDA, BRC, Halal, Organic certified!

Visit the Seamild Group Website:  
<https://en.seamild.com.cn/>

With our mission to globalize the Seamild brand, we have established Seamild International (Australia) in Melbourne. Seamild International (Australia) is committed to expanding our range of Australian-made healthy food products for global markets.

# WAGYU BILTONG

8D2-01 (HALL 8)

#12

**WAGYU BILTONG CO.**

*- Perfectly Cured -*

Wagyu Biltong Co. combines Australia's finest quality beef with a traditional blend of spices to produce our range of ready-to-eat biltong products using traditional South African meat preserving techniques.

Our biltong is:

- Halal Certified
- Gluten Free
- Preservative Free
- Sugar Free
- High Protein
- Keto Friendly

Why Wagyu and Angus Beef?

## **Wagyu Beef**

Wagyu, pronounced "Wag-yew", meaning 'Japanese Cow' originates from Japan. An Australian Wagyu beef development program in the early 1900's, cross bred Wagyu stock with other Australian cattle breeds, producing the largest global supply of Wagyu beef outside of Japan.

Wagyu beef has unique marbling properties produce a delicious and unique taste profile. Wagyu beef contains high quantities of mono-unsaturated fatty acids which have potent anti-carcinogenic and anti-inflammatory properties.

## **Angus Beef**

Angus beef originated in Scotland - the Aberdeen Angus cattle breed - and is recognised as the unrivalled beef industry leaders for its suitability to Australian conditions.

The nutty flavour profile is attributed to the meat's consistent marbling, which leads to consistent taste and tenderness.

호주관

Evolved from the highly successful Food&HotelAsia (FHA), FHA-Food & Beverage is Asia's leading most international food & beverage trade event that brings together the global f&b and hospitality community.

FHA-Food & Beverage offers an exemplary experience underlined by the most wide-ranging food & drink products and innovations that are top and trending across the globe. More than 70% of exhibitors are made up of direct manufacturers and as many as 15% are expected to use this platform as a launch pad for new-to-market innovations.

It will provide global suppliers with valuable access to quality buyers including distributors, importers, manufacturers and retailers, and attendees will also gain valuable insights into developments and future trends of the food & beverage industry. To further complement the exhibition, expect dedicated zones, competitions, masterclasses and more.

[www.fhafnb.com](http://www.fhafnb.com)

Saladplate is the official content and engagement hub for the Hospitality, Food and Beverage portfolio, part of Informa Markets. Saladplate is a dedicated platform to gain insights into the latest news, innovation, and trends shaping the hospitality, food and beverage industry and the wider business community.

Alongside content which includes weekly news updates, a monthly newsletter, and a bi-monthly e-magazine, the platform also provides exclusive access to over 10,000 brands, companies and products through its comprehensive supplier directory and access to event registration, and updates from over 35 international trade events.
